KALAHARI

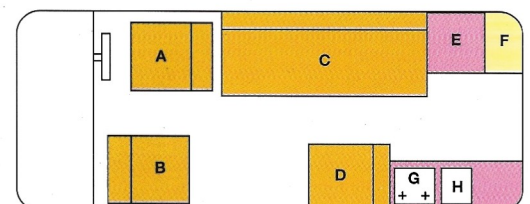

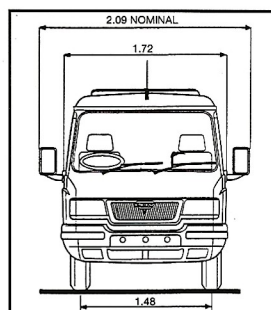

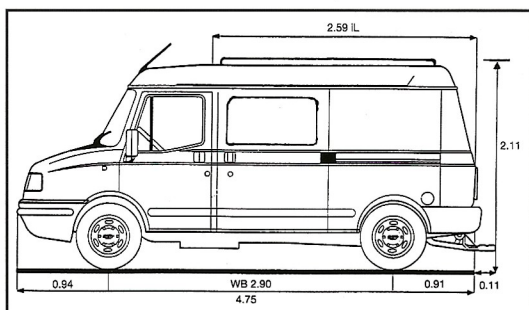

MOTOR CARAVANS LTD

The KALAHARI is a two berth elevating roof motorcaravan based on the new L.D.V. Pilot. It is powered by a 1.9 litre Peugeot diesel engine and has power steering and a stereo radio/cassette included in the standard specification.

There are two full length single beds, with an optional childrens bed in the roof, and a rear kitchen with access through both the side and rear doors. The kitchen is fully equipped with a fridge, a two burner hob with grille and a matching stainless steel sink. Drinking water is stored in a 14 gallon underfloor tank and is provided through a tap operated pump.

The front passenger seat swivels to face the rear where there is a forward facing seat with seat belt and a roomy settee along the drivers side. The Kalahari has a full length wardrobe and an abundance of storage cupboards, drawers and lockers and space is provided for a Porta Potti 335. For ventilation there are two large opening double glazed windows in the side and a vent with flyscreen in the roof skirt.

The Pilot is renowned for its rugged durability and now has advanced zinc coated steel panels for even more corrosion resistance. On this base Devon have designed a spacious, well equipped motorcaravan built to the same high standards and using the same materials as in their more expensive models. The result is a durable and comfortable camper with a more affordable price for those with a keen eye for value.

- A Drivers Seat
- B Swivel Passenger Seat
- C Settee (Making Bed)
- D Rear Seat (Making Bed With B)
- E Fridge
- F Wardrobe
- G 2 Burner Hob & Grille
