

DEVON

MOTOR CARAVANS LTD

VENTURER

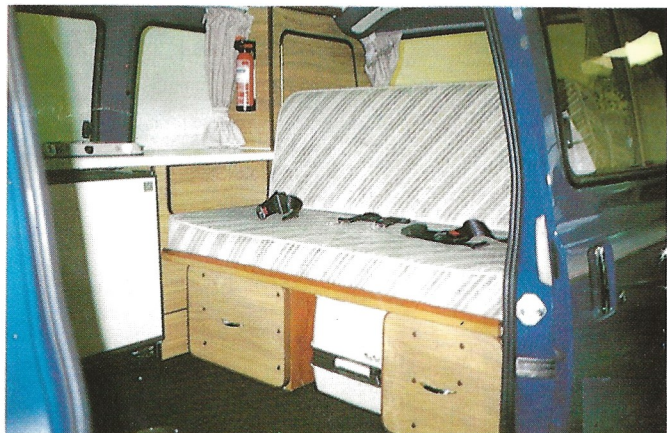

The Venturer is based on the Nissan Vanette and offers full camping facilities in a vehicle that is only the size of a small car, being just 13ft long and 5ft 6ins wide. The overall height of 6ft 4ins allows the Venturer to fit into most garages and with its light and easy controls it really does take the place of a car for every day transport.

For touring however, it turns into a luxurious motor caravan for two persons. Being fully equipped with double bed, fridge, attractive enamel two burner hob and sink with 12 gallon fresh water tank and electric pump.

The dinette seats four comfortably, so with an awning attached the Venturer can be used by a family of four and like all **Devon's** seat belts are fitted as standard to the forward facing rear seats.

The Venturer is designed so that cooking and washing up can be carried out whilst seated, but there is an optional elevating roof available if overall vehicle height is not crucial. Storage space includes a large wardrobe, under bed drawer, kitchen cabinets and space for a Porta-Potti 235. The upholstery is top quality velour and both the foam and material are fire retardant.

The Vanette is well equipped with radio, heated rear window, five speed gearbox and has a 1500cc petrol engine, with the option of a 2000cc diesel. For those who require a truly comfortable, well equipped motor caravan, yet want compact, reliable, easy to park every day transport, the Venturer must be worth further investigation.

As part of our policy of continuous improvement and development, designs, materials, and colours may vary from those illustrated.

Unit 12, Alder Close, Eastbourne, Sussex BN23 6QF. 0323 648484.
