

DEVON

SAHARA

The Sahara is a large and spacious 4 to 6 berth motorhome with a unique layout, that offers outstanding value for money. For the same price as many small van conversions the Sahara offers a "two room" layout with the washroom and kitchen in the middle.

At the rear there is a comfortable four seater dinette with panoramic views through the large rear windows which at night converts into a double bed. When your Sahara is used for just the two of you this can be left made up as a permanent bedroom, whilst using the front as a living room.

The front makes a four seater living area, with both cab seats swivelling, and this makes into two full size single beds at night. This unique layout offers great flexibility in use for both two or four occupants. An optional bunk bed for two children is available above the rear bed, if required, and there are two forward facing seats behind the cab, both with lap and diagonal seat belts.

In the centre of the van, there is a toilet compartment with cassette toilet, fixed handbasin with hot and cold running water, pull out shower and bathroom cabinet. Opposite this is the kitchen with two burner hob and grille, matching stainless steel sink, three way tilt tolerant fridge and additional fold down worktop. Standard equipment includes mains and gas water heater, mains hook-up, auxiliary battery and Zig CF8 with auxiliary charger. The Sahara is fitted out to Devon's usual high standard, with solid plywood furniture and only the best quality fixtures and fittings.

The Sahara is based on the robust LDV Convoy renowned for its durability and solid build, backed up by extensive manufacturers warranties. The Convoy is powered by the proven Ford 2.5 direct injection diesel engine, with optional turbo, and is rear wheel drive, a feature often appreciated by motorcaravanners when driving on wet grass. To further enhance this feature an optional limited slip differential with twin rear wheels are available, as is air suspension. Power steering is standard and there is a choice of colours including metallics.

The Sahara is a unique motorhome with its solid build, superbly thought out layout, high level of equipment and some useful, rarely available options - all at a most competitive price. No wonder the Sahara already has a loyal band of followers.

Overall Length : 5.54m

Overall Width : 2.09m
