PROVENCE

Following the success of our Renault based range, starting with the Monte Carlo in 1998, Devon are proud to offer their latest Master based model - the Provence.

Based on the 120BHP 6-speed version of the highly acclaimed Master LWB, the Provence is designed for just two people, providing an exceptionally stylish and spacious living area that just makes you want to linger a little while longer.

At the front is a comfortable 'L' shaped settee that converts to a large double bed in just one easy movement. When the bed is made up there is still an aisle from the swivel cab seat, past the bed, through the kitchen to the shower and wardrobe at the rear, with easy access in and out of the van through the full height rear doors.

The exceptionally stylish kitchen has everything you will need. It comes well equipped with a Smev four burner hob, oven and grill along with a stainless steel sink and drainer. There is a large fridge, cutlery drawer and a complete set of crockery and storage jars in purpose built storage. The full length wardrobe also has useful small garment shelves and there are roof cupboards and storage under the settee.

The shower room has a cassette toilet, fixed handbasin in a solid wood worktop, a vanity cupboard, full length mirror and hand held shower.

All the appliances are of the highest quality with Webasto diesel-fired blown air heating, gas or mains electric Truma water-heater, 110 AmpHr, carbon fibre leisure battery, auxiliary mains charger and Seitz double glazed windows with concertina blinds and flyscreens.

Relax in the spacious surroundings of the Provence, and we hope you will agree with us that "en Provence" is the best place to be.
