

DEVON

MOTOR CARAVANS LTD

SUNDOWNER

The Vauxhall Midi Sundowner is a competitively priced spacious motor caravan, that sleeps up to four in comfort, yet only has the external dimensions of a large car. It comprises a four seater dinette, a separate rear kitchen and an elevating roof.

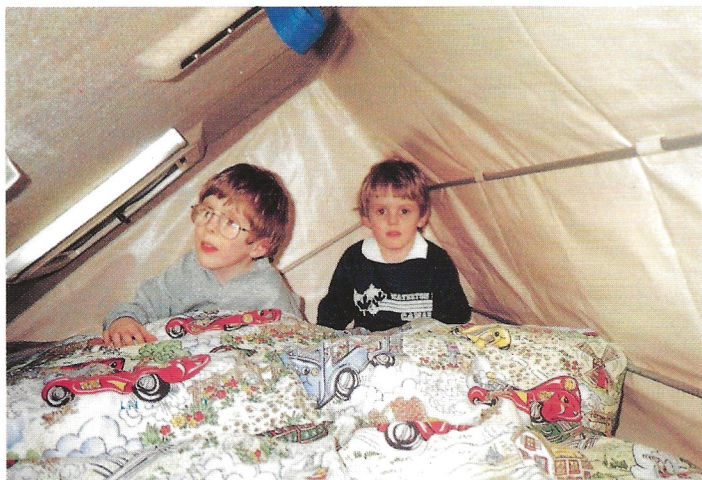

The dinette is situated directly behind the cab and by utilising "rock 'n roll" hinges quickly folds down to a six foot long double bed. There is an optional large double bed in the elevating roof. The roof is assisted by pressurized gas struts allowing it to be raised and lowered with the greatest of ease.

The kitchen is situated at the rear, separate from the dinette, keeping it fully accessible when the dinette is in full use or both upstairs and downstairs beds are made up. It is fully equipped with a three burner enamel hob and grille, matching sink and drainer, 12v gas fridge, wardrobe, ingenious seven gallon fresh water tank on wheels and has ample storage space in the kitchen units.

As with all Devons, the forward facing rear seats are fitted with seat belts, the upholstery is top quality velour, the curtains are lined velvet and only top quality materials are used throughout.

The Midi is available with a powerful 2.0 litre engine or hard-working 2.2 litre diesel, has a five speed gearbox, luxurious interior and comes with a choice of three seater cab with column gear change or two seater cab with floorchange and centre console. Also standard are heated rear window, rear wash wipe, radio/cassette and a host of other features giving car like comfort.

If you require a fully equipped motorcaravan that has the handling and manoeuvrability of a large estate car why not road test a Midi Sundowner today.

As part of our policy of continuous improvement and development, designs, materials, and colours may vary from those illustrated.
