

# DEVON PASADENA

The Pasadena is based on the Long Wheelbase Peugeot Highroof Boxer/Fiat Ducato vans, commonly known as the "Sevel" vans. These are available with a range of diesel engines and there is a variety of colours to choose from.

The Pasadena is designed to offer the most spacious and luxurious accommodation possible for just two people with plenty of floor space and room to move around. There is a large double bed across the rear, which makes into a four seater dinette during the day. In the front there is a breakfast bar area, utilising the swivel passenger seat and an upholstered bar stool.

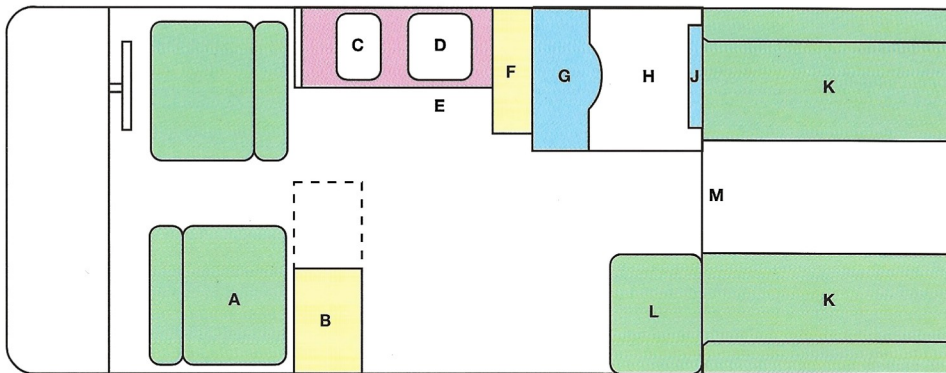

The shower/toilet compartment has a Thetford Cassette, and tip up basin with pull out shower. The kitchen has a stainless steel two burner hob and grille with electronic ignition, matching sink, and a tilt tolerant 3 way fridge of 60 litre capacity. There is of course mains and gas heating for the water and a blown air space heater that also heats the washroom.

The Pasadena has an exceptional amount of storage room with space under the rear raised dinette for folding chairs, etc., large storage areas in both dinette seat boxes. A wardrobe, hanging cupboard, overhead cupboards and a linen basket.

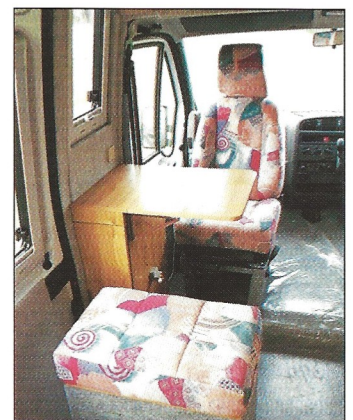

All the furniture is built by craftsmen from high quality plywood and is available in two finishes. There is also a choice of upholstery materials and curtains to match.

If you are looking for a little more comfort and space, but within the confines of a van conversion which has the advantages of an integral steel body, high side and rear doors then the Pasadena could be just what you require.
