

DEVON MONTE CARLO

Additional Layouts now available for Monte Carlo

Due to popular demand, the Monte Carlo is now available with additional front and rear layouts, extending this model's versatility even further.

The layout from our Camargue model can now be specified for the front of the Monte Carlo. This consists of two forward facing seats with lap and diagonal seat belts, which convert at night to two full-size single beds. During the day both cab seats swivel to form a lounge, thus using all the available space in the van from the dashboard to the tailgate.

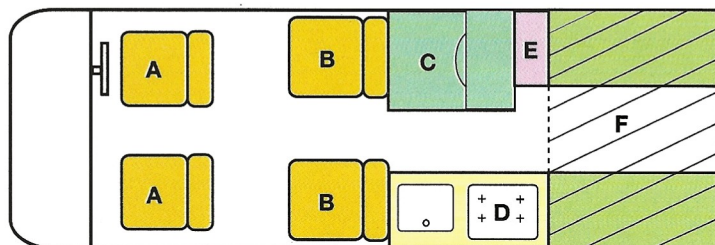

The rear section of the "two room" Monte Carlo is also now available with new layouts. Firstly one can have a rear dinette, with two settees facing each other, which convert at night to a full size double bed. When the Monte Carlo is used just for two, this can of course be used as a permanent bedroom. Alternatively for those who require extra carrying capacity, a raised, fixed rear double bed can be specified, giving an enormous boot area underneath with

full access through the rear doors. The Monte Carlo does, of course, benefit from a useful payload.

These new layouts come with a Truma Combi Boiler, supplying 12 litres of hot water and warm air is supplied through four outlets, including one in the shower. The Eberspacher diesel heating system can be specified as an option.

Other improvements include the standard fitment of a Stoves Newhome combined hob/grill and oven along with a flush fitting sink with glass lid. The fridge is now a Coolmatic compressor fridge with the advantage of simple operation – just switch it on when you leave home and off again upon your return. The fridge is powered by the large auxiliary battery.

With these improvements, added to its already outstanding versatility, the Monte Carlo is surely the van to be reckoned with.
