SUNDOWNER

The Sundowner is a luxurious 2-berth motorhome based on the long wheelbase VW Transporter with factory high-roof and full height rear doors.

Building on the success of the award-winning SWB Moonraker, the Sundowner offers more space with room for a swivel cassette toilet in the rear. The door to this opens out into a partition giving a spacious separate rear end washroom when needed.

Both cab seats swivel and with these in the reverse position, the two rear travelling seats slide forward to form two comfortable single beds, both approximately 6ft 2in in length.

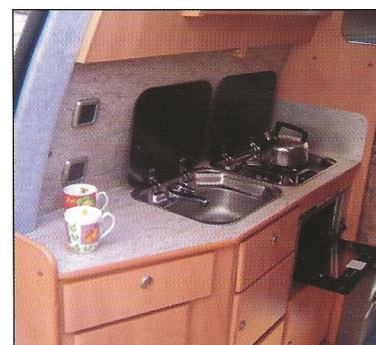

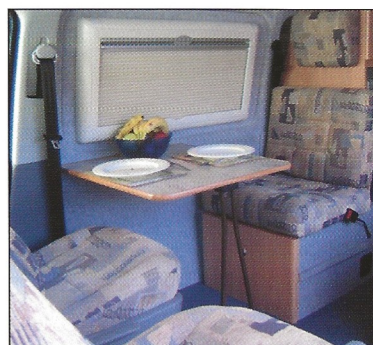

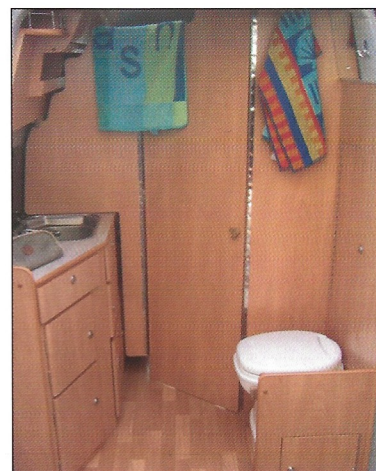

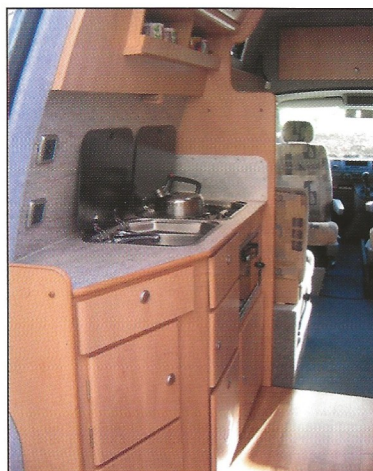

There is ample storage space with a large over-cab cupboard, two wardrobes, a large cupboard above the fridge, two underseat drawers and of course, all the kitchen cupboards.

The large kitchen is equipped with stainless steel sink and two-burner hob with smart flush-fitting glass lids, while below the hob is a Smev mini oven and grill. A mains water heater is fitted as standard and there is the option of Eberspacher diesel-fired blown air heating. The fridge is a 65 litre compressor type, although a 3-way absorption fridge can be specified at no extra cost.

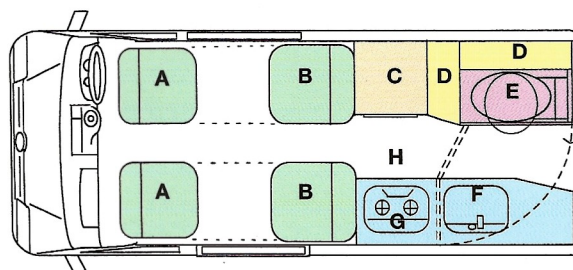

There is a mains hook-up as standard with two mains sockets and a mains charger for the 110AH leisure battery. The fresh 45 litre tank is located under the floor and there is a waste tank as standard. Silver Screens are provided for the cab.

The build quality and reliability of the Volkswagen are of course renowned and Devon add to this their enviable reputation for high quality conversions and value for money.

The Sundowner can be specified with any of the available VW options, including automatic transmission and all the usual motorhome accessories can be fitted by Devon.

- A Swivel cab seats
- B Rear seat
- C Fridge
- D Wardrobes
- E Cassette toilet
- F Sink
- G 2 Burner hob
- H Mini oven/grill
